

possible pedigree variations from what I have stated in this letter

1. first possibility

children of Jeptha
Elijah Turvin or Tarvin

Elisha Turvin or Tarvin

other children possible but
not proved to this compiler
One of Jeptha's daughter's may
have married a Collins, this
is inferred in land records

not known to this compiler

2. second possibility if Jeptha is older than 1780

→ Brother to Jeptha - Richard

I am inclined to think that your Richard who married the Elizabeth is likely to be the son of another Richard and the nephew to Jeptha Turvin rather than his descendant or son. You have no Jeptha's in your family tree but the name Richard is very dominant. If only we had more bible records for some of these people, we could have tied off more of the loose ends on these problems.
